

NEW UNIT FOR HARBOR HOSPITAL

Plans and specifications for an emergency unit at Harbor General Hospital at Torrance were approved Tuesday by the Board of Supervisors.

Opening of bids for award of contract on the construction of the facility was set for November 21, at the Hall of Records. Supervisor Raymond V. Darby announced that the supervisors also adopted a resolution asking for Chapter 20 funds to aid in financing the construction. The cost is estimated at \$86,600, while only \$80,000 has been budgeted. The new resolution requested an additional \$3920 of state funds for the project.

Darby revealed that the plans for the emergency unit are for 7600 square feet of floor area in a one-story wood frame and stucco building. Provision is made for receiving rooms for ambulatory and emergency stretcher cases, admitting offices, doctors and examination rooms, emergency treatment rooms and alcoves. Nurses station, three rooms for single beds, and two wards of four beds each, with the necessary employees' and public restrooms have been included in the specifications.

The new unit when completed will be connected by the covered corridor which leads to the other buildings of the hospital.
